PEP Insights Research Survey Report
The experiences of Public Engagement Professionals during Covid -19

September 2021
Introduction

The PEP Insights Research captured a specific moment in time during the Covid-19 pandemic. The research aimed to explore the impact of Covid-19 on public engagement professionals and the engagement work of universities in order to inform future decision making, to build effective support for PEPs, to raise awareness of specific issues relating to the PE in HE context, to support culture change, and to negotiate the future together.

This collaborative peer research project used semi structured interviews; focus groups and a survey.

There are three outputs from the research.

The PEP Insights Research Report synthesises the main findings from the research.

The PEP Insights Research Short Report is a summary of the main findings.

This document, which summarises the data from the survey.
Who took part in the survey?
Who took part in the survey?

There were 128 responses to the survey

• The majority of respondents were based within higher education research institutions. Of those who did not, 7 were freelancers, who had experience working with higher education institutions on their engagement work; and 10 worked for non HE organisations, such as museums, and science centres.

• Respondents included a full range of experience, from those who had been in the role for less than a year, to those who had been a PEP for over 10 years. There were slightly fewer respondents who had been a PEP for less than 3 years.

• The majority of respondents had been at their main organisation or working as a freelancer for 3-5 years, although there was a full range of experiences from less than a year, to over 10 years.

• The majority of respondents identified as female (100); 20 identified as male, 1 identified as non binary, and 3 preferred not to say.
What type of institution do you work for?

128 responses

- Russell Group University: 54
- Post-1992 University: 17
- Research Institute: 17
- University which isn’t part of the Russell Group or classed as a post-1992 university: 10
- Freelance / Consultant: 7
- HE organisation: 5
- Non HE organisation: 16

How long have you been a Public Engagement Professional (PEP)?

- Less than 1 year
- 1-3 years
- 3-5 years
- 5-10 years
- More than 10 years
How long have you been a PEP within your current main organisation/or as a freelancer?
What is your gender?

- Female: 100
- Male: 20
- Non-binary: 0
- Prefer not to say: 0
Impact of Covid-19 on PEP Professional Practice
Summary of the results

128 people participated
101 women 20 men 1 non-binary
7 preferred not to say

How COVID-19 has impacted people’s roles
- 78 positively and negatively affected
- 31 negatively affected
- 6 positively affected

Changes in people’s main PEP role
- 115 practice changed
- 51 objectives changed

How did universities commitment change
- 67 maintained their commitment
- 27 decreased their commitment
- 17 increased their commitment

Competing pressures on time
- 75 found competing pressures on time has become more of a barrier

Key areas to prioritise in the PEP sector in the future
- 103 felt building trust and addressing equality, equity and inclusion to be key

Possibilities arising from Covid-19 pandemic
- 88 felt possibilities have come for their own practice
- 48 felt possibilities have come for their institution
- 79 felt possibilities have come for the sector
  others felt it was too early to tell

Skills used in response to COVID-19
- 79 used skills to develop new online engagement
- 33 used skills to work on activities not related to PE
- 17 felt their skills were not specifically used

PEP role before UK national lockdown
- 61 fixed term contracts
- 57 ongoing contracts

Length of time as a Public Engagement Professional (PEP)
- 21% less than 3 years
- 25% 3-5 years
- 54% more than 6 years

Where people normally operate
- 60 central or cross-institutional level
- 41 departmental/faculty level
- 19 individual research group

Furlough
- 14 placed on furlough
Please tell us about the nature of your employment in your main PEP role before the UK national lockdown, which started on 23 March 2020 (All)

Other (2)
I have 2 0.5FTE roles which add up to a full time role that is open ended but fixed term funding
80%, fixed-term contract

In summary
61 fixed term contracts
57 ongoing contracts
6 freelance
2 hourly paid casual
2 other
Which of the following describe the purposes of your main PE role? (Select as many as applicable)

- Strategic Lead: Set direction at institutional/faculty/departmental level
- Project Lead: Conceive of new PE initiatives and projects
- Coordinate: Manage PE initiatives that senior colleagues have initialised
- Support: Use your insights to enhance PE initiatives that others are developing
- Deliver: Involved in the practical undertaking of PE activities and projects
- Other (please describe)

Other (10)
5 responses referred to public engagement training

Other responses included:
- Teaching undergraduate students
- Evaluation
- Facilitation
- Line management
- Supporting grant applications
- Funder
Where do you mainly operate in your organisation/the organisation you work with?

- Work with/at a central or cross-institutional level
- Work with/at a departmental/faculty level
- Work with/in an individual research group
- Other

Other (8)
- All three (3)
- Depends on role (2)
- Externally funded research centre (1)
- Science publication (1)
- Volunteer service (1)
Did you hold your main PEP role alongside any other job roles before 23rd March 2020?

Of the 41 respondents who held other roles:
- Research support (8)
- Freelance (4)
- Teaching (4)
- Other outside HE (4)
- Other inside HE (4)
- Academic researcher (4)
- Senior leader (1)

Others stated:
- Full time role (4)
- Changed role (2)
- Unclear (2)
Are you currently in the same main PEP role as you were before the 23rd of March, 2020?

Of the 27 respondents who said No
• New job (12)
• FTC ended (4)
• Redeployed (3)
• Official role changed/ expanded (3)
• PE put on hold (1)
• Moved to full time (1)
• No role (1)
• No answer (2)

Those who said that their role had changed
• Personal choice (9)
• University decision (3)
• Covid-19 related change (5)
• Ill health (1)
Are you or have you been placed on furlough by your employer as a result of the COVID-19?

- **Yes**
- **No**
- **Not relevant**
- **Other**

**Furlough**
- Of the 14 who had been put on furlough
- 7 were on furlough for over 3 months
- 10 were on furlough full time
- 5 experienced flexible or part time furlough
- 1 was put on furlough out of consideration for their caring responsibilities

Other (4)
Not relevant (6)
During the UK national lockdown, which started in 23 March 2020, did the primary location of your workplace change?

- No – I continued to work from home
- Yes – I worked from home (prior to the 23rd of March 2020, I mainly worked away from home)
- Yes – I worked from home more, but continued to occasionally access my workplace
- No - other
- Yes - other
Has the impact of COVID-19 affected your professional capacity to do your role?

- COVID-19 has had both positive and negative effects on my professional capacity to do my role
- COVID-19 has negatively affected my professional capacity to do my role
- COVID-19 has not had any effect on my professional capacity to do my role
- COVID-19 has positively affected my professional capacity to do my role
## Positive and negative impacts on roles

Using three words, please describe your feelings about your main PEP role before UK national lockdown on 23rd March 2020.
Using three words, please describe your feelings about your main PEP role before UK national lockdown on 23rd March 2020 – challenging removed
Using three words, please describe your feelings about your main PEP role before UK national lockdown on 23rd March 2020 – challenging and excited removed
Has the practice of your main PEP role changed as a result of the COVID-19 pandemic?

How has your practice changed?
- Moved online (59)
- PE more challenging online (17)
- Focus changed (10)
- More time (9)
- Challenging to engage researchers (8)
- Increased workload (3)
- PE stopped (3)
Have the objectives of your main PEP role changed as a result of the COVID-19 pandemic?

Please summarise how they have changed:
- Focus of role changed (16)
- Moved online (7)
- New types of engagement (5)

No - the objectives of my role are the same
Yes - the objectives of my role have changed significantly
Yes - the objectives of my role have changed slightly
Using three words, please describe your feelings about your main PEP role after 23rd March 2020
Using three words, please describe your feelings about your main PEP role after 23rd March 2020 – challenge removed
How would you rate your organisation’s commitment to PE?

- **No commitment**
  - Prior to March 2020: 1
  - Currently (Dec 2020 - Jan 2021): 1

- **Low commitment**
  - Prior to March 2020: 5
  - Currently: 5

- **Moderate commitment**
  - Prior to March 2020: 35
  - Currently: 35

- **High commitment**
  - Prior to March 2020: 45
  - Currently: 45

- **Very high commitment**
  - Prior to March 2020: 20
  - Currently: 20

- **Don’t know**
  - Prior to March 2020: 1
  - Currently: 1
Change in commitment – this graph illustrates how individual’s assessment of institutional commitment before COVID-19, and currently changed.

**Increase in commitment**
- Commitment to meeting community needs (8)
- PE more visible (5)
- More money (2)
- Increase in commitment not caused by Covid-19 (5)

**Same commitment**
- Changed focus for engagement (7)
- Fragmented (4)
- Commitment not affected by Covid (1)

**Decrease in commitment**
- No longer prioritised (22)
- Commitment but not resourced (8)
- Increased constraints (6)
- Furlough/ staff redundancies (5)

O: no change
-1: the institutions commitment decreased by ‘1’ on the scale
-2: the institutions commitment decreased by ‘2’ on the scale
-3: the institutions commitment decreased by ‘3’ on the scale
+1: the institutions commitment increase by ‘1’ on the scale
+2: the institutions commitment increase by ‘2’ on the scale
From the following, what do you feel have been the biggest challenges that you have experienced with your PE work during the COVID-19 pandemic (Max. 3 responses)

Other included
- Links to other staff (4)
- Technology (3)
- Working with new publics (2)

Adapting activity approaches/formats due to lockdown restrictions
Continuing/maintaining engagement with target audience groups
Uncertainty in capacity of researcher staff time
Difficulties related to personal circumstances outside of the role
Changes to organisational priorities
Maintaining relationships/collaborations with those external to the university
Challenges faced by external partners
My working context
Difficulties linked to short-term nature of contracts
Changes to priorities in own role
Changes to staff allocations such as changes to staff time and redeployment of staff to other projects
Difficulties related to funding allocation/usage
Difficulties in accessing resources, equipment, etc
Uncertainty in capacity of public engagement colleagues
Staff being on furlough
Changes in departmental priorities
Other
How do you think the barriers to PE within the organisation you work with/for have changed as a result of the COVID-19 pandemic?
How were your knowledge and skills used by the organisation you work with/for in response to the COVID-19 pandemic? (Select as many as applicable)

- My knowledge and skills were not specifically used by the organisation in response to the COVID-19 pandemic
- To work on other activities not related to public engagement in response to the COVID-19 pandemic
- To adapt our public engagement programmes in light of the COVID-19 pandemic
- To work on new online public engagement activities in response to the COVID-19 pandemic
- To work on new non-digital public engagement activities in response to the COVID-19 pandemic
- To work on the same public engagement activities that I had been doing before the COVID-19 pandemic
- Other

When asked for more information about how skills used:
- Online skills redeployed (9)
- Just as normal (5)
- Wellbeing (4)
- EDI (3)
- Not used (3)
- Covid-19 support (3)

Other
- Used my skills to launch and run specific Covid-19 grant calls.
- My knowledge and skills were used to support researchers carrying out PE projects by redeploying me to another team.
- To facilitate finding PPI members for a Covid-19 project.
- The other options are N/A. My skills with digital communications were made use of but for knowledge sharing not PE.
- My skills were used early on to assist with the above, but then my contract was terminated.
Do you feel that your own experience during the COVID-19 pandemic has opened new possibilities/opportunities for your own PE practice?
Please describe what possibilities/opportunities you feel the COVID-19 pandemic has brought to your work

- New digital skills
- Opportunity to be creative
- Chance to develop new public engagement approaches
- Space to reflect on own/organisation’s public engagement priorities
- Rethinking how universities should be involved with their local communities
- Develop new external partnerships
- Engage different external stakeholders
- Work with new academic colleagues
- Renewed public interest in research expertise
- Work with new professional service colleagues
- More supportive relationships within the organisation
- New organisational/departmental priority
- Work with new students
- New non-digital skills
- No possibilities or opportunities have been opened up
- Other

Other
- Moved from delivery to other areas of work
- New audiences
- Time to think
- Nothing – just coping
Do you feel that the COVID-19 response of the organisation you work with/for has opened new possibilities/opportunities for PE in your context?

Describe opportunities
- Moved online (10)
- Increase access for publics (13)
- Increased access / visibility internally (7)
- Increased importance of PE (6)
- New ideas (5)
- Links to stakeholders/communities (5)
Thinking about the PE sector in the UK as a whole, do you feel that the COVID-19 pandemic has opened new possibilities/ opportunities?

- Yes: 80
- No: 10
- It is too early to tell: 20
- Don’t know: 0

Describe opportunities:
- Increased accessibility (36)
- Innovation (9) and creativity (4)
- Address digital exclusion (8)
- Raised profile of public engagement (6)
- Time to reflect (6)
- PEPs more connected as community (5)
- Public more interested in science (5)
- New partnerships (4)
- Blended approaches to engagement (3)
- Local place based engagement (3)
Using 3 words, what are your hopes for the future of public engagement?
Out of the options outlined above, which do you think are the three key areas where development and support should be prioritised for the future of the PE sector?

- Building trust and addressing equality, equity and inclusion
- Resourcing the engaged university
- Incubating new ways of working
- Collaborative platforms
- Nurturing leadership and developing capability and talent
- Supporting COVID-19 recovery work
- Data, evaluation and insights
- Open and reflective environments
- Other

Other (4)
Resourcing partners and communities on whom universities rely for PE and community expertise. Advocacy for the highly capable and talented workforce we already have.

Attracting and retaining top scientists from EU and elsewhere to work in UK. We are facing a very severe brain drain.

I don't think these are any different to what we are currently doing, we are just creating more and more labels for them.
Focusing on the categories you have selected above, what are the three things you feel funders, NCCPE and/or other stakeholders could do to support the sector to achieve this vision of the future? (optional)

49 respondents chose to answer this question, and the answers were coded using deductive coding, with each statement coded multiple times, if necessary.

The majority of responses referenced funders:
Clear expectations and accountability (9)
Fund PE staff time (8)
Integrate into grants (8)
Fund engagement sustainably (5)
Research informed by the public (5)
Create new opportunities for collaboration (4)
Address inequality in funding awards (4)

Responses targeted at all three stakeholders included:
Share good practice (8)
Research evidence and evaluation (7)
PEP contracts (5)
Training (5)
Promotions and Awards (4)
Defining engagement (3)
Diversify sector (3)
Develop digital platforms for engagement (3)
